**HOLLOWAY'S PILLS.**

**Nervous Disorders.**

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one!—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

**Mothers and Daughters.**

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

**Disorders of the Kidneys.**

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be affected with stone or gravel, or with acids and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

**The Stomach out of Order.**

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

**Bronchitis, Diphtheria, Coughs, Colds.**

Nervous diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

**Debilitated Constitutions.**

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

**Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.**

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

**Holloway's Pills are the best remedy known in the world for the following diseases:—**

Ague, Female Irregularities, Retention of Urine, Scrofula, or King's Evil, Sore Throats, Stone and Gravel, Secondary Symptoms, The Douloureux Tumours, Uterine Affections, Veneral Affections, Worms of all kinds, Weakness, from whatever cause, &c., &c.

Sold at the establishment of **PROFESSOR HOLLOWAY,** 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1d., 2s. 3d., 4s. 6d., 11s., 22s., and 35s. each Box.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

"ARGUS" AND THE CIVIL SERVICE.

Much has appeared in these columns from the pen of our valued correspondent "Argus," bearing upon public questions and public men; and much, very much, of what he has contributed, has been of a character calculated to exercise a salutary influence upon those who occupy places of responsibility and trust. Notwithstanding the mordacious style in which "Argus" sometimes indulges, so long as he confines himself to public questions of a practical character, and deals with public servants, as such, we would say "No objection, no objection," as a late Royal Duke used to observe in church when the parson said, "Let us pray." Or rather, as his Royal Highness would sometimes remark, "Very proper—very proper." A public newspaper should be "a terror to evildoers, and a praise to them that do well;" and whenever we are convinced that there is anything wrong which publicity or exposure might have a tendency to eradicate or restrain our columns are always open, and our pen ever ready. In a colony circumstanced as British Columbia is at the present time, virtually ruled by the colonial minister and his subordinates, through those whom they may think proper to send out to us, the people upon whom devolves the duty of raising the revenue being allowed little or no voice in the management of the affairs of the country, it especially becomes the duty of the public journalist to watch the interests of a disfranchised people. But, much as we are impressed with the responsibility of the anomalous position we occupy, in the absence of those institutions which would enable the people to protect their own interests in a more legitimate and, perhaps, more effective way, yet we cannot altogether overlook a duty of another kind which we owe to ourselves and to others—that of excluding from our columns anything which we conceive to be calculated to injure private feeling rather than promote the public good. While regretting the severity—perhaps harshness—were the better word—with which "Argus" has thought proper at times to handle some of our public men, yet he has in the main had our cordial sympathy, believing, as we do, that there is much, very much room for retrenchment and reformation in the civil service of this colony. But we have a firm and abiding faith in the head of the Executive. We believe that it is only necessary to expose wrong in order to have it removed. Under these circumstances, we feel assured that our motives in declining to publish the communication with which our correspondent has just favored us will not be misunderstood.

Telegraphic Confederation.

The following paragraph, taken from one of our exchanges, will help to convey some idea of the magnitude to which the telegraph system has attained on this continent. It is just twenty-eight years since the telegraph was put to the test. It was then considered a mere toy. Well may we exclaim, "what hath twenty-eight years wrought?" So far as that branch of the great telegraphic confederation with which we have more immediately to do is concerned, the progress has been equally marvellous. On the 6th of March, 1865, the first telegraphic wire in this colony was stretched. It was less than a mile in length, connecting the head office here with Government House—a mere piece of courtesy, in fact, on the part of the obliging and gentlemanly Superintendent. On the 21st of the same month the cable was submerged across the Fraser, and on the 18th of April, the first dispatch from the East—the sad news of the assassination of Abraham Lincoln—reached this city. Mr. Conway, the pushing Assistant Engineer, has been somewhat hindered in extending the line towards the Russian Possessions, from the non-arrival of materials. So soon as a supply of insulators come to hand a few days will suffice to complete the line as far as Yale, and a few weeks more will place us in communication with Cariboo. The posts are already on the ground for a distance of 300 miles, and it is expected Fort Alexandria will be reached by the 1st proximo; so that it is not unreasonable to expect that in less than two months we shall be able to talk to the "boys" on Williams Creek. "The Western Union Telegraph Company, with a capital of \$22,000,000, and the American Tele-

graph Company, with a capital of about \$6,000,000, have agreed on terms consolidating the two companies under one management, at the rate of two and half of the consolidated stock for every share of the American Company's stock. A half share more of consolidated stock for every share of the American, we understand, is contingent on the recovery and possession of the Morris line from Washington city southward. Under these arrangements, the wires of the consolidated company will extend not only to every quarter of the country, California, Oregon, Vancouver Island and British Columbia included, but by connections with almost every habitable quarter of the globe. The united capital of the several companies, as contemplated, namely, \$22,000,000 of the Western Union, \$10,000,000 of the Russian Extension, \$6,000,000 of the American, and \$1,000,000 probably for the Washington and New Orleans, and an additional \$1,000,000 for some two or three other minor local lines, will aggregate a capital of this one combination of about \$40,000,000. Few people outside of the companies, though perhaps profiting from the advantages of the use of the lines, have any just idea of their extent, or of the magnitude of the business done over them."

NOTICE TO MARINERS

ENTERING

FRASER RIVER.

ALL previous notices issued by the Harbour Master of British Columbia, having reference to the Sand Heads of Fraser River, are hereby rescinded.

The following directions are published for general information:

The Beacons carried away since last fall have been re-constructed, excepting the South Sand Head No. 1, and the following alterations and additions made. The Light Ship now building will be placed near to the South Sand Head, being substituted for No. 1 Beacon.

The Beacons are formed with clusters of piles, each Beacon having a distinguishing feature at the top of the piles, and being numbered consecutively from 2 to 10, irrespective of the Crib on the North Sand Head.

No. 2. BEACON, NORTH SAND HEAD—Placed in 1 foot at low water, 4 cable from the buoy in a N. W. direction, showing from a southerly bearing a black diamond elevated on a pole 16 feet above the top of the piles.

A 1/2 of a cable distant from No. 2 Beacon, farther on the Sand, is a loaded crib in an incomplete state at present; at high water spring tides it is awash, but at low water it looms like the hull of a small vessel. A pole 20 feet long with a black board at the top pointing to the Channel is charged to it. A permanent Sea Mark will be built upon it in the course of a few months, of which due notice shall be given.

No. 3. BEACON, NORTH SAND—In 6 feet at low water, shows black and white horizontal stripes both on the pole and beacon, and is situated about half-way between chequered and black buoys.

No. 4. BEACON, NORTH SAND—1 cable distant in a S. W. direction from black top buoy, is distinguished by a black triangle elevated on a white pole 16 feet above the piles, and placed in 2 feet at low water. The piles are white-washed.

No. 5. BEACON, NORTH SAND—On the spit 1 1/2 cable from red top buoy (placed in 5 feet at low water). This beacon is remarkable from its leaning position and is readily distinguished by the red cask on a white pole above the piles, the top of which is also white.

No. 6. BEACON, NORTH SAND—1 cable distant from white buoy in a westerly direction, is placed in 7 feet at low water. On the top of the pole is a white triangle, the apex of which is on the lower part of the pole. This beacon forms a conspicuous object and must be appreciated, as it will guide Vessels in the Channel when entering and leaving the River. The beacon is all white.

No. 7. BEACON, SOUTH SAND—Is a black beacon placed in 8 feet at low water, having a St. Andrew's cross elevated on a pole 16 feet above the piles.

No. 8. BEACON, SOUTH SAND—A cable's length from No. 7, in 1 foot at low water. This Beacon is white, having a St. Andrew's cross on a pole as above described in No. 7. As these Beacons, No. 7 and 8, are intended as marks for crossing the Bar, they are hereafter alluded to as the x Beacons. This Beacon (No. 8) is not to be regarded in any way except to lead Vessels over the Bar in the deepest water. For Vessels of large draught the x Beacons will be found invaluable, as by taking care to "port" sufficiently soon, after passing the black top buoy, so as to cross when in a line, they will lead over the Bar, carrying from 10 to 22 feet at high water Spring Tides. In all other parts of the Channel much deeper water will be found. After the red top Beacon is brought in a line with the white Beacon (No. 6), the red top buoy may be with safety rounded, then steer in direction for the white buoy, and from thence to the Ball Beacon on Garry Point.

No. 9. BEACON, SOUTH SAND—On the edge of the bank, placed in 1 foot at low water, is nearest to the Mouth of the River, and distinguished by a black pole having at the top two black boards on two sides of the pole horizontal with each other, the top of the piles is also black.

No. 10. BEACON—Is a land mark placed on Garry Point to indicate the Mouth of the River, which shows from every direction a large White Beacon. The Beacon is 6 feet of the pole, and the top of the piles are black the lower part of the Beacon is white-washed.

All buoys on the North Sand, after entering the Channel with Vessels of large draught, should be passed close on the "port" hand. Caution is hereby given that the Beacon constructed on the North Sand is not intended as marks for the Navigable waters of the Channel but to indicate the locality of the several buoys.

The old white buoy has been removed and a red spar buoy placed on the spit of the middle Sand inside Garry Point, in 12 feet at low water, which must be past by Vessels Entering the River on the North Sand.

By following the above directions Mariners will find the Channel well and clearly defined, and with ordinary care a perfect stranger may navigate his Vessel with safety into Fraser River.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

## News from the East.

NEW YORK, June 2.—The *Tribune's* Washington dispatch says: Col. N. H. Taylor, Gen. Lee's adjutant, general surgeon W. J. Moore, and about 30 Confederate soldiers at present residing at Norfolk, Va., were summoned to appear before the U. S. District Court this morning with a view to testifying against R. E. Lee and other prominent officers on the charge of treason. The *Herald's* special says Charles O'Connor had applied to the War Department for permission to tender Jeff Davis his professional services in case he is arraigned upon the indictment found in the District Court. The President has decided that O'Connor's application be granted, to the end that the constitutional provision which secures accused persons the assistance of Council may be respected. Washington special says the movement of Sherman's army to Louisville is actively progressing. The *Times* special says Longstreet's business in Washington is to make special application for pardon and restoration to full civil rights. He has already taken the amnesty oath. The *Herald's* Richmond correspondent says ex-Governor Smith, of Virginia, is roaming in the woods back of Staunton, and is determined to fight it out if it takes all summer. He has a body guard of guerrillas with him. John Minor Botts has been invited to Richmond by Gov. Pierpont. It is said that a large number of Mosby's men are still at large in the mountains.

NEW YORK, June 2.—The *Post's* special says that the trial of Jeff Davis in the U. S. Court in this city will take place before a full bench, consisting of Judge Carter of Ohio, Judge Olin of New York and Judge Wiley of Virginia.

NEW YORK, June 3.—The *Commercial's* dispatch says the application of Longstreet for pardon is regarded as a test case as to treatment of a large number of rebel military men included in various Confederate armies.

NEW YORK, June 2.—The *Herald's* special says Congressmen Harris, Maryland, who was tried for persuading rebels of Lee's army not to take the oath of allegiance, was sentenced to 3 years' imprisonment and forfeiture of all civil rights. The President approved the finding but annulled the sentence.

NEW YORK, June 2.—The *Commercial's* special says there is much complaint of Halleck's management in Richmond. It is charged that rebels are getting into power under his influence. These charges, together with others, explain his transfer to California.

NEW YORK, June 4.—The *Herald's* Charleston correspondent reports the arrest of Governor Magnath at Columbia on the 24th for high treason. He was taken to Hilton Head, and will soon be sent for trial. He surrendered quietly to Lieutenant Breck, who was sent to make the arrest. Advances from New Orleans requested permission of Canby to be allowed to take twenty thousand men across the Rio Grande into Mexico to the assistance of Juarez.

ST. JOHNS, N. B., June 2.—In the admiralty case of the *Queen v. Seely*, of the *Chesapeake*, today, Sir James Carter, Chief Justice, and Judges Parker and Wetche presiding. The jury went out but there is no probability of agreeing. The trial excites no interest.

NEW YORK, June 4.—The *Penna.* has arrived with dates from Liverpool to the 23rd and Queens town to 24th of May. The news of the Mexican emigration scheme in the United States attracts attention. London *Daily News* remarks that if Johnson intended giving France cause to declare war he would not now be disbanding armies and recalling ships. The throne of Maximilian may be endangered by the help which Juarez may get from the American people in ways which will give Napoleon no right to remonstrate with Johnson. The London *Morning Post* says reliable information leaves the inference that so far as Johnson is concerned he has no intention of interfering either in Mexican or, what is most important, Canadian affairs. A characteristic letter from Garibaldi is published, earnestly hoping for the continuation of friendship between England and America. D'Israeli has issued an additional manifesto for the Conservatives, advertising to an extension of franchise. He goes in for admission of almost all classes in state. The Paris *Patrie* has reason to believe that the attention of the French Government is occupied with news of a clandestine motive in America, and that if necessary it will adopt energetic measures against U. S. volunteers. Admiral Didot will leave U. S. in the frigate *Thomas* with instructions about the end of the war. Two hundred and thirty thousand pounds sterling have arrived in England. The French Government is much displeased at Prince Napoleon's speech at Ajaccio Course.

LIVERPOOL, May 24.—It is stated that some of the French ministers threaten to resign unless French troops are withdrawn from Mexico. The French Government has adopted the measure of limiting to 24 hours American vessels in French ports.

SAN FRANCISCO, June 13.—Flour moderate; home trade begins without special change in quotations. Napa (family) in sacks sold at \$14 per bbl; local extras \$15. The first new wheat of the season, comprising 840 sacks from Martinez, has been received since our last. It is from Sonora seed and raised on summer fallowed ground; quality good, and held at 4 cts. Barley, we have only to note jobbing lots of old feed at \$1.40 to \$1.45; new, at about \$1.00 per 100 lbs. Corn, a small lot of yellow, 85 sacks,

at \$2.85 per 100 lbs. Oats dull at \$1.50 to \$1.62 per 100 lbs. Private dispatches quote gold in New York on the 9th June at 136 to 137; sterling exchange at 110. Legal tenders 76 to 76 1/2.

## SECOND DISPATCH.

NEW YORK, June 5.—The *Tribune's* Washington correspondent says, Harrington, Assistant Secretary of Treasury, has resigned, and will go as Minister resident to Berlin in place of Fogg.

NEW YORK, June 5.—The Mexican question once more attracts attention. Gen. Steele has been ordered to the frontier with an army of observation of thirty thousand men. Foreign ambassadors are greatly perplexed by the movement. It is understood that Count Monthonel will demand an explanation from the State Department.

WASHINGTON, June 5.—Sam Cox, of Newark, (Md.) charged with harboring Booth and Harold, has been arrested. Col. Greer, proprietor of Vaness Place, Washington and his wife also, are arrested.

FORTRESS MONROE, June 4.—The second portion of Texan fleet, under command of Gen. Draper, has sailed.

WASHINGTON, June 5.—The Secretary of the Treasury publishes a statement of the public debt as it existed on May 31st. Total indebtedness, \$263,520,575,050, the interest on which, in gold and paper, is \$124,638,874. The amount of treasury notes in circulation is \$659,160,568; fractional currency, \$24,657,060.

WASHINGTON, June 5.—Ambrose W. Clark, of New York, some time ago appointed U. S. Consul at Valparaiso, has accepted the appointment and will at once proceed to his post. An order for the release of all the prisoners of war under the rank of Major, will soon be issued. Commissioned officers will be required to give bonds for the faithful observance of the oath. The President has within the past few days received threatening letters, which have been placed in the hands of the proper authorities for investigation.

The United States Telegraphic Company have contracted with reliable parties to build two more lines of telegraph from St. Louis and Chicago to San Francisco; the lines from the Eastern cities to Denver and from San Francisco to Virginia City to be finished this autumn, and the whole line to be completed in autumn of the following year.

SAN FRANCISCO, June 14.—The steamer *Moses Taylor*, which sailed this morning for Panama, took out 570 passengers. General McDowell, believing the present state of the country now happily settled, admits of charges against citizens under military arrest, for disloyal practice being disposed of by civil instead of military tribunals.

Henry Langlar, first mate of the ship *Vollette*, was yesterday held to answer before the United States Grand Jury, for beating a seaman, named H. Daymore, on the high seas.

The new newspaper appeared yesterday, B. F. Washington, Editor. It has sprung from the ruins of the *Democratic Press*. The Board of Supervisors, last evening received two petitions from property holders on Market Street, protesting against the laying down of cobble stones or any other kind of pavement in that street, except the Nicholson. Legal Tenders 75 1/2 and 75 3/4. The feature in commercial circles to-day, was the public sale of refined sugar. The San Francisco and Pacific refinery, together with a lot of New York fine assorted amounting, to about 4000 bbls., sales were 1,500 bbls. crushed at \$14.50 per 100 lbs.; one thousand half bbls. do, low c. at \$11.87 1/2; one thousand and a half bbls. do, low c. at \$13.35; 1,175 bbls. N. Y. crushed, at \$14.50 @ \$15; 200 bbls. do., at \$14.30; all for cash. Rice market heavy under a disposition to realize. Auction sales of 1,600 mats No. 2, China, at \$8. and \$8.75, per 100 lb. Coffee: 50 bags Rio, and 88.75, per 100 lb. Whiskey: a lot of 40 barrels eastern high proof was sold at \$1.77 1/2, market heavy. Flour: steady, being without change. It is estimated that the amount of breadstuff in the market this day is equivalent to 21,000 barrels of flour; 36,000 sacks wheat. Oats: sales 750 sacks in lots \$1.40 @ \$1.50 per 100 lb., latter price for choice. Sailed on the 12th the brig *Commodore Small*, for Puget Sound.

NEW YORK, June 5.—The following is President Johnson's order releasing Harris:—"Washington, May 31st, 1865.—In the case of Benjamin G. Harris, the findings and sentences of the court are hereby approved and confirmed. Additional evidence and affidavits, however, bearing upon the case favorably to the accused, having been presented to and considered by me since the sentence aforesaid, I propose to direct that the sentence in the case of Harris aforesaid be remitted, and he be released from imprisonment. (Signed) ANDREW JOHNSON.

NEW YORK, June 5.—The *City of Washington*, from Liverpool, with dates to the 24th, has arrived. The London *Times* says, the question of the Alabama rejoinder has reached an unpleasant point. Great Britain having refused indemnity, the American rejoinder amounts to a complication. The Paris *Motivier* confirms the report of an order limiting the stay of Federal ships in French ports, and says France has also announced that she will hasten the removal of all other restrictions, as soon as the Washington Cabinet ceases to exercise exceptional rights which as a belligerent it is enabled to entertain towards neutral nations. The *Monitor* says, it believes that Johnson will follow the wise and friendly policy of Lincoln.

NEW YORK, June 5.—Newbern advices state that the result of the judicial investigation at Nassau, showing that the Yellow fever last summer, which carried off some thousands of prisoners, was introduced by the infamous Dr. Blackburn, has caused the utmost horror. The people of North Carolina are fast becoming reconciled to the free labor system and like the change. There is a strong attachment between masters and former slaves. They seek each other and make satisfactory terms for labor. The universal suffrage question excites great interest, the people being undecided only as to the time when negroes should vote.

NEW YORK, June 5.—Barbados advices of the 15th state that Yellow fever is raging among the crews of vessels in Demerara. Ninety cases, were admitted to the Hospital, in fourteen days. In Panama and Granada heavy rains had injured

the prospect of the corn crop, to the extent of five thousand hogsheds. In Guadaloupe, crop operations are brisk. The wharves and store-houses are full of sugar.

The Toronto, (C. W.), *Globe* announces that the Canadian Delegates in England are meeting with marked success. The policy proposed includes a basis on which the connection between Great Britain and Canada will be rendered firm and lasting, and embraces measures calculated to immediately enhance the property of the country and develop its resources.

NEW YORK, June 5.—The steamer *Havana*, with Havana dates to May 30th has arrived with advices from Galveston by the blockade runner *Lark* to 28th May, which state that great confusion and anarchy reigned in that city and in Houston. The *Lark* was robbed of her cargo, and returned to Havana in ballast. Magruder attempted to make a speech, but the soldiers hissed and silenced him. He was told that they had been humbugged enough and intended to settle affairs themselves. Magruder returned to San Antonio, leaving Mayon and principal officers to hurry up the surrender.

Mexican date to the 28th May state that guerrillas were as thick as ever. Negrette was at Victory with 5,000 troops. May 20th: The French troops were moving against the place. The U. S. steamer *Susquehanna*, and monitors *Monadnock* and *Americus*, and the gunboats *Chippewa*, *Monticello*, and *Ward*, has arrived at Havana.

## THIRD DISPATCH.

SAN FRANCISCO, June 15.—In accordance with the recent order of Gen. McDowell, the parties under arrest for uttering treasonable sentiments and rejoicing over the assassination of President Lincoln were turned over to the civil authorities. Last evenings boat brought down 13 from Benicia, with the Green Valley secessionists—29 more were brought over from Alcatraz this morning. All the parties were brought before Judge Hoffman, when upon motion of their counsel, seconded by District Attorney Lake, they were allowed to subscribe to the oath of allegiance, and depart in peace. The firm of Greenhood and Newbauer have been indicted by the U. S. Grand Jury, for perjury in their business affairs to the internal revenue assessor. The indictment charges them with swearing that their business transactions did not exceed fifty thousand dollars per annum, while it charged that in reality they exceeded one hundred thousand, at the time of making such statement. A preliminary examination into the case of the murder of Max Walter, was held this a. m. Mr. Spitz has so far recovered as to be able to give his testimony fully identifying Antonio Seizovitch alias Macks, the murderer. He was held to answer on the charge of murder in the first degree. The United States Grand Jury yesterday dismissed the complaint against A. Cummings and other of the Brotes Arizona expedition, charged with violating neutrality laws, in enlisting men in the United States to serve a foreign power. A party of Mormons consisting of nine men, twelve women and one hundred and thirty six children are expected to arrive from Salt Lake on Saturday, and sail immediately for the Sandwich Islands. They are the pioneers of a colony that Brigham Young is establishing there. John Perry, Jr., who for years has been a leading stock and exchange broker in this city, failed to-day, for upwards of ten thousand dollars. His failing is due to heavy losses on mining stocks and greenbacks. Legal tenders 72 @ 72 1/2. Business in exchange for Saturday's steamer is moderate; currency bills 30 premium, coin, 1 1/2 @ 2. Rice, sales good No. 2 China, 10c. Sugar: auction sales 3,000 barrels Hawaiian at prices ranging from \$10 to \$12.50. Flour: moderate, trade at current prices. New wheat received from Martinez comprising 895 sacks has been sold on private terms; another lot for which an offer of 3 1/2 cents per pound, was refused. Barley: 700 sacks Chili, for brewing, at \$1.70, also 500 sacks old bay, \$1.40. Hay: sales 500 bales new yesterday, today \$13 to \$14.50 per ton. Frank Hudson, corporal of Co. 32nd cavalry Cal. Vol., who is under sentence of death, for killing St. Levergood at Chico will be hanged at Sacramento tomorrow. Sailed on 15th the bark *Vernon*, Puget Sound. The brig *Adelaide*, Puget Sound.

"THE CARIBOO SENTINEL."—Such is the title of the new paper just established in Cariboo by Mr. Wallace, late of the *Victoria Express*, the first number of which has reached us. Typographically the *Sentinel* presents a very creditable appearance, especially when the disadvantages under which it must have been issued are taken into consideration. The "salutatory" is written with considerable pith, and, if divested of a little clap-trap indulged in with respect to some of those questions touched upon, is calculated to impress one very favorably as to the ability and principles of the Editor. The bold avowal of union proclivities takes us somewhat by surprise. It matters little, however, what course he may deem it to be his interest to pursue upon a subject which may be considered as settled for the next five years at least. We observe with much satisfaction the ground he appears disposed to take with respect to a Chinese tax, the abolition of road tolls, and some other questions of perhaps minor importance. There are some points, however, upon which we shall have to differ with our contemporary. The first number contains a large amount of interesting mining news from nearly all the creeks, which has evidently been compiled with considerable care. Copies of the paper are to be had at the store of Messrs. Clarkson & Co.

STEREOSCOPTICON.—The exhibitions on Thursday and Friday evenings were well attended, and appeared to give great satisfaction. Some of the views were highly interesting and edifying, while others produced continued bursts of laughter. The chromatic views, or, as some call them, Chinese fire-works, were particularly interesting to the juvenile portion of the audience. There will be another opportunity afforded this evening to those who have not already availed themselves of an entertainment certainly cheap at the price charged. We believe it is the intention of the proprietors to visit Yale early next week.

## New Advertisements.

FROM VICTORIA.—By the steamer *Enterprise*, which arrived from Victoria last evening, we have our usual files, from which we extract the following intelligence:—Sir James Douglas and son, Hon. Doug. McTavish, Colonial Secretary Young and Mrs. Young and family, were at San Francisco, and are expected up by the next steamer.—Three slight shocks of an earthquake were felt on Sunday night and Monday morning.—The election in Washington Territory has resulted in the return of Mr. Denny by a majority of 1,000 votes. The bark *Metropolis*, 18 days from San Francisco, and bound to this port, arrived at Victoria on Thursday. She has 233 sheep and a general cargo for this place. The schooner *Milton Badger*, 185 days from New York, laden with materials for the Collins' Telegraph line, and bound to this port, had arrived at Esquimalt.—The ship *Mary Glover*, 55 days from Hong Kong, with 280 Chinese and 100 tons merchandise, arrived on the 15th.—A public meeting was held on Thursday evening, the Mayor presiding, respecting the church reserve, at which some very temperate speeches appear to have been made.—H. M. S. *Camden* had returned from the coast, but without any intelligence of the murderer, Antonio. We fear our estimate of the news published a few days ago in the Victoria papers will prove correct.

OUR DISPATCHES.—The telegraph line, after an interruption of about ten days, is again working, and we are receiving dispatches which have been accumulating during that period. Much of what we are now publishing is comparatively stale and uninteresting; and yet its publication would appear to be necessary in order to perfect the chain of events recently transpiring in the East. We hope the line will be less subject to interruption in future.

NANAIMO AND BURRARD INLET.—The steamer *Caledonia*, Capt. Frain, left on Thursday for Nanaimo, with a considerable number of passengers. She will return by way of Burrard Inlet, and bring the timber from Messrs. Moody & Co.'s mills, for the belfry in course of erection at Holy Trinity Church.

FROM DOUGLAS.—The steamer *Hope*, Capt. Dodge, arrived from Douglas yesterday, bringing Dietz & Nelson's Express and a few fat cattle from Sumass, for Dickinson, Brothers. There is no news of importance from Douglas.

FROM YALE.—The steamer *Lillooet*, Capt. Fleming, returned from Yale yesterday, bringing Dietz & Nelson's Express and a small amount of treasure, but no news of importance.

HELD OVER.—Owing to a press of Eastern news and advertisements we have been obliged to lay over our leader, together with a considerable amount of other matter.

TO CORRESPONDENTS.—"Argus" and "Squirt" are both declined, the former because of its over poignancy, and the latter because we conceive the subject upon which it treats to be of too frivolous a character. "Caustic" will appear in our next.

#### ALL CURES MADE EASY!!

#### HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad

Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the

healing properties of this excellent Ointment. The

worst cases readily assume a healthy appearance when

ever this medicament is applied; sound flesh springs

up from the bottom of the wound, inflammation of the

surrounding skin is arrested, and a complete and per-

manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with

certainly be cured by the softening Ointment, if they

will use Holloway's Ointment, and closely attend to the

printed instructions. It should be well rubbed upon

the neighbouring parts, when all obnoxious matter will

be removed. A poultice of bread and water may some-

times be applied at bed time with advantage; and most

scrupulous cleanliness must be observed. If those who

read this paragraph will bring it under the notice of

such of their acquaintances whom it may concern, they

will render a service that will never be forgotten, as a

cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and

subduing pain in these complaints in the same degree

as Holloway's cooling Ointment and purifying Pills.

When used simultaneously they drive all inflammation

and depravities from the system, subdue and remove

all enlargement of the joints, and
